

## COMPONENT TEST REPORT

### GLUE FOR STAINLESS STEEL RAILING ACCESSORIES

#### PHYSICAL AND CHEMICAL PROPERTIES

|   |  |
|---|--|
| Physical State                          | Liquid                                     |
| Color                                   | Green                                      |
| Odor                                    | Sharp                                      |
| Odor Threshold                          | Not available                              |
| pH                                      | Not available                              |
| Vapor pressure                          | <10 mm hg (27°C (80.6 °F))                 |
| Boiling point/range                     | >149 °C (>300.2 °F)                        |
| Melting point/range                     | Not available                              |
| Specific gravity                        | 1.1  |
| Vapor density                           | Not available                              |
| Flash point                             | >93.3 °C (>199.94 °F) Tagliabue closed cup |
| Flammable/Explosive limits- lower       | Not available                              |
| Flammable/Explosive limits- upper       | Not available                              |
| Autoignition temperature                | Not available                              |
| Evaporation rate                        | Not available                              |
| Solubility in water                     | Slight                                     |
| Partition coefficient (n-octanol/water) | Not available                              |
| VOC content                             | 6.5%; 62.03 g/l                            |
