3. Blade Assembly
4. Thinning Control
5. Cutting Length Control
- 6 On/Off Switch
7. Power / Charging Indicator
8. Cleaning Brush
9. Lubricating Oil
10. USB cable

CHARGING

- Before using the appliance charger, ensure that the voltage of your electricity supply is the same as that indicated on the appliance (5V 1A) or it will be broken or burned by wrong voltage.
- Your clippers contain re-chargeable batteries and may be used cordless for approximately 45 minutes when the batteries are fully charged.

IMPORTANT NOTE: The batteries must be charged for a minimum of 8 hours for the first charge cycle. This will ensure the maximum life for the batteries.

CHARGING THE CLIPPERS

- Connect the USB cable which is already with adapter to the charging socket or only connect it to computer or power bank for charging
- The Power/Charging indicator on the Clippers will illuminate green.
- Leave the Clippers until fully charged for 8 hours.
- After charging, disconnect the USB cable from the mains to conserve power and store it in a safe place.
- The Clippers are now ready for use.

NOTE: The clippers will only show the green light while in charging or fully charged, there is no light change function, so please carefully calculate the full charge time 8 hours for disconnection.

BATTERY CARE

To ensure maximum life from the batteries in your Rechargeable clippers, follow these guidelines:

- Do not recharge the Clippers between sessions. Wait until the batteries are exhausted before recharging.
- Discharge the appliance completely twice a year (switch on and run until the Clippers stop).
- If the Clippers haven't been used for a long period of time, discharge the appliance completely, then fully charge them for 8 hours before use.
- Never charge the Clippers for more than 24 hours.
- Do not use the Clippers while connected to the Charger, or may cause short life of battery

- Never recharge the appliance in a temperature below 10°C.
- Avoid recharging the appliance in direct sunlight or near a radiating heat source.

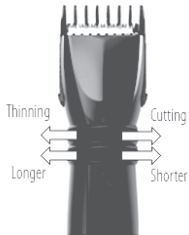

OPERATING INSTRUCTIONS

WARNING: Never use the appliance on wet hair. it is only designed for use on dry hair.

When using this appliance for the first time it is advisable to experiment initially on an area of light hair growth.

SETTING THE CUTTING LENGTH

- To set the cutting length, rotate the Cutting Length Control wheel to set for a shorter or longer cut.
- The cutting length is marked on the side of the comb.
- Set the Thinning Control to the left position to thin hair or to the right to cut hair.

CUTTING HAIR

- Before starting, comb the hair in the direction of hair growth as shown
- Switch on the Clippers by sliding the On/off switch up toward the 'O' position.
- Pressing the Comb against the head, start by clipping the sides from the bottom of the head upwards.
- Slowly move the Clippers up towards the top of the head cutting small amounts at a time.
- Repeat step 6 around both sides and the back of the head.
- Clip the top of the head from front to back.

NOTE: Do not push the clippers or force the clippers through the hair.

CUTTING HAIR

WARNING: The Clipper blades are very sharp when unguarded.

CAUTION: Care should be taken when using the Clippers without the

- Clipping guide fitted as the Clippers will remove any hair that comes into contact with the blades.
- Switch off the Clippers.

- Remove the Comb attachment.
- Switch on the Clippers.
- Position the Clippers so that only one edge contacts the hair.
- Slowly shape the hair around the ears and contour the neckline by positioning the blades against the neck and moving downwards.
- For final trimming of the hair, fringe or beard, use scissors (not provided).

AFTER USE

- When you have finished, switch off the Clippers by setting the On/Off switch to the 'I' position.
- Always clean the blades after use with the brush provided.

CARE AND CLEANING

- The appliance must be unplugged before cleaning.
- The black plastic Comb Attachments should be cleaned in running water.
- Ensure they are completely dry before using them.
- Clean the housing of the Clippers with a soft, dry cloth.
- The cutting blades should be lightly oiled with the oil provided once every few haircuts.

NOTE: Do not use any harsh detergents, abrasives, solvents or cleaners. never immerse in water to clean. Dry thoroughly before use.
